

# SOMERSET FIRE & RESCUE Co. No. 1

14 Hollywood Ave.  
Somerset N.J. 08873

## Firefighter Skill Sheet

|    | Performance Measure                                                                                                                                                                                                                                              | S | U |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|---|
| 1  | Explain the meaning of the seating assignments and identify the responsibilities of seats 1 and 2 on the engines                                                                                                                                                 |   |   |
| 2  | Identify the differences between the 4 pre-connects on the engines                                                                                                                                                                                               |   |   |
| 3  | Identify the contents of each compartment on E561                                                                                                                                                                                                                |   |   |
| 4  | Identify the contents of each compartment on E562                                                                                                                                                                                                                |   |   |
| 5  | Explain the uses of the various hose types in the hose bed of E561                                                                                                                                                                                               |   |   |
| 6  | Explain the uses of the various hose types in the hose bed of E562                                                                                                                                                                                               |   |   |
| 7  | Demonstrate how to start the Partner circular saw and the Echo chain saw                                                                                                                                                                                         |   |   |
| 8  | Demonstrate how to change the blade on the Partner circular saw and what each blade is used for                                                                                                                                                                  |   |   |
| 9  | Demonstrate the use of the Rabbit tool                                                                                                                                                                                                                           |   |   |
| 10 | Demonstrate the correct use of a portable radio                                                                                                                                                                                                                  |   |   |
| 11 | Explain the Fire District No. 1 Accountability policy                                                                                                                                                                                                            |   |   |
| 12 | Explain the Fire District No. 1 MAYDAY policy                                                                                                                                                                                                                    |   |   |
| 13 | Demonstrate the correct procedure for tying into a hydrant                                                                                                                                                                                                       |   |   |
| 14 | Explain what each high rise pack contains and the difference between the 2 packs                                                                                                                                                                                 |   |   |
| 15 | Explain the difference between negative pressure and positive pressure ventilation and show what type each fan on the engine can be used for                                                                                                                     |   |   |
| 16 | Demonstrate how to properly hook up and start both types of ventilation fans                                                                                                                                                                                     |   |   |
| 17 | Explain the proper use of a search line                                                                                                                                                                                                                          |   |   |
| 18 | SCBA skills. Demonstrate the following:<br>a.) proper donning of an SCBA<br>b.) how to manually activate the PASS alarm<br>c.) how to silence the PASS alarm<br>d.) the procedure for changing the SCBA cylinder<br>e.) demonstrate the reduced profile maneuver |   |   |
| 19 | Demonstrate and explain the proper method for conventional forcible entry                                                                                                                                                                                        |   |   |
| 20 | Name the Chief and Assistant Chief of the other 3 Fire District No. 1 Companies                                                                                                                                                                                  |   |   |
